PROFESSIONAL SUMMARY

Full Stack Developer with a BEng (Hons) in Software Engineering and 1 year of enterprise software engineering experience at SLT-MOBITEL. Experienced in building responsive web applications using the MERN stack, Next.js, and TypeScript. Skilled in designing RESTful APIs, implementing JWT authentication, and integrating machine learning models into production software.

TECHNICAL SKILLS

- **Languages** : JavaScript (ES6+), TypeScript, Python, Java, SQL, HTML5, CSS3
- **Frontend Development** : React.js, Next.js, Tailwind CSS, Material UI
- **Backend Development** : Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases** : MongoDB, MongoDB Atlas, MySQL
- **Tools & Practices** : Git, GitHub, Postman API Testing, Agile/Scrum, GCP

WORK EXPERIENCE

SLT Mobitel – Colombo, Sri Lanka

September 2024 – September 2025

Software Engineering Intern

- Engineered full-stack web application features across enterprise and customer-facing systems using React.js, Node.js, Express.js, and MongoDB.
- Developed a Cinema Seat Reservation System featuring real-time booking workflows and logic to prevent conflicting seat reservations.
- Contributed to an enterprise Internship Management System streamlining intern onboarding, task assignments, and evaluation workflows.
- Architected secure RESTful APIs integrated with JWT-based authentication and Role-Based Access Control.
- Performed API testing, debugging, and feature validation using Postman within an Agile development framework.

EDUCATION

- **Informatics Institute of Technology affiliated with University of Westminster** **2022 - 2026**
BEng (Hons) in Software Engineering With Industrial Placement
Award : Lower Second Class Honours **Awarded :** 06 August 2026
- **ILEAD Vocational Training Centre** **2021**
Computer Graphic Designer (NVQ IV)

PROJECTS

- ❖ **AI – Powered Smart Health Assistant Web Application (Final Year Project)**
MERN | Python | XGBoost | MongoDB Atlas | React.js | Material UI
 - Built a full-stack health web application integrating XGBoost machine learning models in Python to calculate micro/macro-nutrient requirements.
 - Engineered a clinical rule-based engine delivering personalized dietary recommendations and automated medication scheduling.
 - Integrated medical report processing and built responsive interfaces using React.js and Material UI.
- ❖ **Shopstore E-Commerce Platform**
Next.js | TypeScript | MongoDB | REST APIs | Tailwind CSS
 - Architected an e-commerce platform using Next.js App Router and TypeScript tailored for Sri Lankan online retail.
 - Implemented dynamic product filtering, color-variant selections, cart state management, and order checkout workflows.
- ❖ **Saraya Product Management System**
MERN Stack | MongoDB | Express.js | React.js | Node.js
 - Developed full-stack CRUD capabilities, shopping cart features, and RBAC authorization for product and agent workflows.

EXTRA – CURRICULAR ACTIVITIES AND SOFT SKILLS

- All Island Rugby Tournaments.
- Member of IEEE Student Branch of IIT.
